

FLAKE ICE SILOS

ICE STORAGE CAPACITIES
FROM 2 TO 5.5 US TONS

The ***Cascade Series by North Star*** is an expansion of the original North Star flake ice maker and ice storage line that has been trusted in the industry since 1950. The Cascade Series includes a line of durable, industrial grade flake ice silos with storage capacities ranging from 2 to 5.5 US tons that feature a FIFO (First In, First Out) System to deliver the highest quality ice.

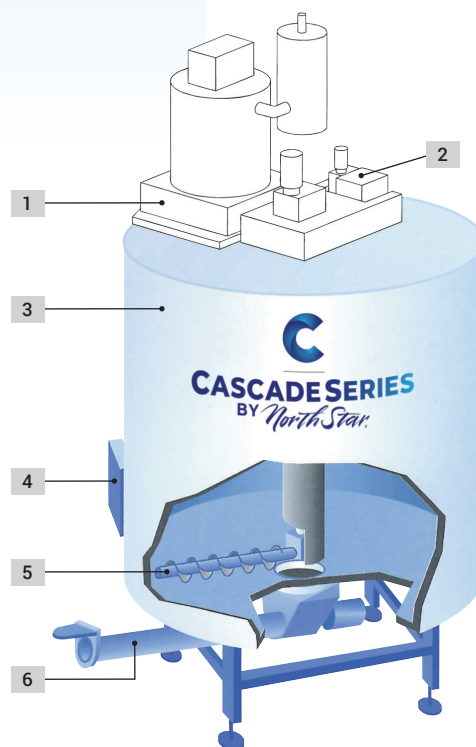

FEATURES:

- Automated ice extraction and discharge screw
- First In, First Out Delivery (FIFO): Guaranteed to deliver the highest quality flake ice
- Designed to meet international food safety and sanitation standards with all ice contact surfaces made from food grade materials
- Versatile: Multiple delivery options available

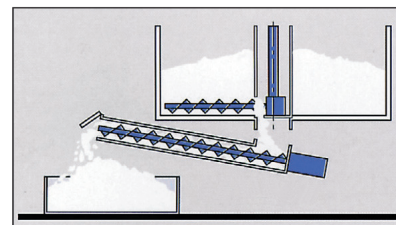

Cascade Series

FLAKE ICE SILOS

Storage Capacity (US tons)	Dimensions L x W x H (inches)	Weight (lbs)	Ice Discharge Speed (lbs/mn)	Electrical Voltage (V-Hz)	Installed Power (Hp)	Bin Insulation
2	106 x 86 x 124	1,985	175	460-3-60	3.5	Polyurethane foam
3	106 x 86 x 148	2,205	175	460-3-60	3.5	
4	106 x 86 x 172	2,425	175	460-3-60	3.5	
5.5	106 x 87 x 197	2,645	175	460-3-60	3.5	

- 1 Flake ice machine
- 2 Drive unit
- 3 Polyester bin
- 4 Electric control panel
- 5 Stainless steel extraction screw
- 6 Stainless steel and polyester discharge screw
